---

Don:

I am not sure if I understand where you said under actions for tomorrow that we would be excavating DRA06 ( although I do think that we need to make sure that we probably do a scrape on it since we had water from decon permeating it and that we do need to make sure that it is formed properly with topsoil added for sod placement). Please clarify. I think you, Nick and Sean need to look at it tomorrow.

Thanks

Gary Moore
